## about us.

HD provides a matchless synergy of indispensable design services to homeowners, architects and interior designers throughout the Hamptons and beyond. We have earned our reputation for being the artful and capable right hand in the design and execution of distinctive kitchens, baths and built-ins. HD offers a select collection of pre-eminent brand fixtures, materials and products - in short, the best of the best.

HD is a complete design resource center, revered for its creativity, vision and flexibility. We partner and work with you which means you can tap into our expertise and utilize our range of services however you choose. Our expert team of designers, led by owner Peggy Fruin, can design from a blank canvas or to your exact wishes and specifications. HD often works side by side with architects and designers to execute a particular vision - from classically elegant to modern as the moment to traditional country charm. Our design aesthetic is fluent in all stylistic genres.

HD also designs customized cabinetry, shelving and storage for virtually every room in your home including your media room, library, living room, home office and laundry room.

HD will oversee installation or will provide it through our team of contractors. We stay hands-on through every phase of design and execution, assuring absolute precision as well as a fulfilling and enjoyable process.

## the perfect kitchen.

It's so true, the kitchen truly is the heart of any home. It exists as a place to indulge creative culinary passions while rewarding your love of great style, function and design. Perhaps most importantly, the kitchen is for sharing and caring for the special people in your life.

We at HD take our mission to create the kitchen of your dreams very seriously. Because no where else in our homes are functional choices and spatial issues more paramount, HD takes special care to provide impeccable design that maximizes your space with custom cabinetry and countertops; products and fixtures that assure state of the art convenience and style; and a seamless process of execution.

Like a life size puzzle of infinite pieces, all elements of your kitchen affect one another. HD is here to organize the myriad design forms and practical functions, employing today's most innovative design techniques within a wide range of price levels. To us, no kitchen is too big or too small.

Making yours the perfect kitchen for your life, your style and your budget is our promise.

“We had an incredible experience with Hampton Design.  
When we returned for the summer, we found the kitchen done to perfection!”

Sandy Greenberg, Homeowner | HD Client

"The HD team is creative, resourceful, energetic and always accountable. I loved working with them, and we're moving onto our second project together."

Pamela Van Zandt, Homeowner | HD Client

## the ideal bath.

When the door closes, your bathroom should indeed provide you and your guests a place of private and comfortable sanctuary. It is, perhaps, the most personal space in your home

We at HD firmly believe that every bath in your home should exist as a uniquely personal and welcoming expression of your singular style as well as a flattering design complement to the style of your home.

The spectacular new array of resources, innovative fixtures, textures and materials make it possible to create bathroom environments that afford a sumptuous experience for all who enter. HD approaches every bathroom project with this noble intent and we succeed by providing the design expertise and vast selection of superior products with which to realize your vision.

Today, tile is no longer just tile. Technology has spawned a new world of textures, patterns and colors that allow for the look of wood, concrete, glass and other natural and man-made materials to exist with the clean impermeability of tile. Sinks, tubs and showers are evocative, provocative environmental elements of magical wonder. Of course, the extent to which you wish to indulge is your choice.

From a simple powder room to a luxurious personal spa off your master suite, HD brings your vision to life.

“Working with Hampton Design is always a wonderful and rewarding experience. They listen, they are responsive and always bring the latest design ideas to every project.”

Brian Brady, President | Brady Design
